

Pontem and Patriot Properties Join Forces!

Although, Pontem Tax Administration is designed to work with a variety of appraisal systems, the introduction of Patriots' AssessPro software to the State of Michigan brings a much needed choice to Michigan Assessors.

Driven by the desire for choice and free, open data exchange, a core group of Pontem users, including both county equalization directors and local assessors, have evaluated property tax appraisal software available from Patriot Properties. Both Pontem and the members of this group are excited about the robust features available with Patriots' AssessPro software!

- Embedded GIS capabilities-Full real time integration from both ESRI and GeoMedia
- Save time and money with the Patriot *SketchPro* - Completely interactive with AssessPro.
- Highly user definable
- Automated interface with Pontem Property Tax products
- and much, much more

Earlier this year Patriot met with the State Tax Commission regarding certification requirements. They have made significant progress preparing the product for Michigan, and are in the process of acquiring State Tax Commission certification. They plan on having a Michigan certified appraisal product available yet this year.

Patriot shares Pontem's corporate and product development philosophy including:

- Free, open data exchange, using industry standard file formats
- Prompt, quality customer training and support
- *Free* updates to new generation product releases as part of their normal license fee and maintenance agreement

Resource Information Associates, Inc. (a/k/a Pontem Software), based in Michigan, has been in business since 1979 developing and supporting Property Tax Administration, Fund Accounting and Cemetery Management software for local government.
