Cemetery Management As Easy as 1-2-3!

In an era where every day and dollar count, it's more important than ever to manage your resources wisely. Pontem Cemetery Management Software will help you manage your burial records easily, securely and affordably!

Cemetery Management

- **Data Manager**
- **GIS or Basic Mapping**
- **Image/Document Management**
- **Online Burial Search**

Flexible, affordable and easy to use - it's no wonder Pontem Cemetery Management software is a Number One choice nationwide!

Discover the Pontem Difference...

Imagine an easy-to-use system to manage your cemetery's owner, burial and genealogical records that allows you to define custom fields as needed, conduct searches of your database *fast,* print professional looking reports and forms, including customized deeds and certificates. Pontem's Cemetery Management System software offers all that, and more!

Our goal is to help you *work smarter, not harder* — and that's why we also back up our products with an unparalleled level of customer service and support.

You'll have unlimited access to online tutorial videos and answers to frequently asked questions. Or, you can call one of our knowledgeable Support Specialists, toll-free.

PLUS, ALL product updates, including new software releases, are provided free of charge as part of your annual support and service plan!

"Pontem is very user-friendly. It's not just your basic database. It offers so many options to make corrections, run various reports, lists, and also customize options, reports and lists to my specifications. When looking at other similar software products, Pontem's abilities greatly surpass the competition. The customer support is excellent. They've been wonderful to work with, easy to talk to, and very helpful."

— Angela Raney, Decatur Township, IL

"Before purchasing Pontem, we were using BMS (Burrowes) software which created many road blocks for us. I was very pleased with how quickly the data conversion went. I am very pleased with Pontem and how quickly I can pull needed reports and client information. Switching to Pontem has proven to be an easy and pleasurable experience."

— Sandi Miller, Selma Cemetery District, Selma, CA

"We recently converted our cemetery records to the Pontem Cemetery Management system. I personally researched for a new company that was known for its reputation for strong customer service as well as being well established in the software industry, providing a proven track record for innovative products. The selection of Pontem Software, over two years ago, has proven to have been the right move for us. The program is easy to use and understand. Our administrative staff has been very pleased, not only with the software, but also the responsive support and services provided by Pontem Software."

— Larry Ostapow, Superintendent, Notre Dame Cemetery, Fall River, MA
