Maintain Data Quickly and Accurately

Accurate tax data is crucial for managing the many facets of today's complex government offices. Pontem's Tax Administration software enables "smart" data entry, which translates into saving hours of time and helps avoid costly data entry mistakes.

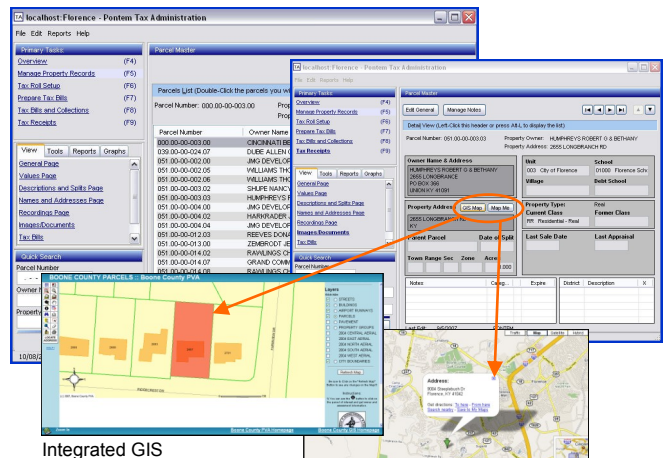

Pay List Screen:

Process one or many payments with Pontem's built in work flow that walks you through the process from start to finish.

Manage Parcel Records:

Access parcel data from one easy to use screen!

Integrated GIS

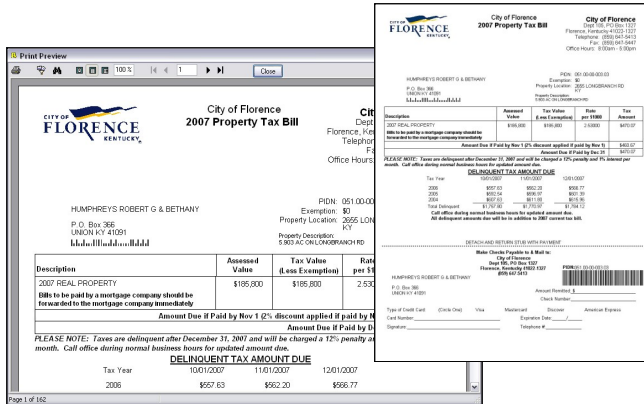

Map the property address on Google

Powerful and Easy to Use Reporting

With Pontem's Tax Administration software you can print or preview reports with the touch of a button. Choose from many standard reports that come with the product, or customize your own. By selecting your own search criteria, you can generate reports for current, as well as historical data. For total flexibility, you can publish in most formats, including Microsoft® Word, Excel, PDF, even HTML for publishing to your website.

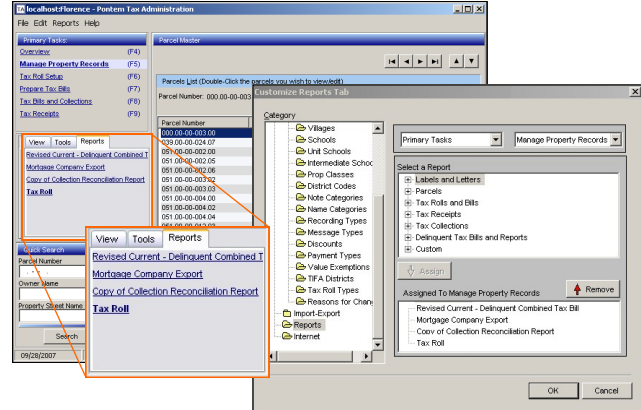

Report Print Preview:

Use the report preview feature to quickly answer questions as they come up. Tired of wasting paper printing unnecessary pages of a report? With Pontem you can simply select the pages you want to print.

Customizable Report Preferences:

Assign frequently used or customized reports as defaults on the easy to access 'Reports Tab'. Customized tax bills and tax receipts can be used by your whole organization once they are setup as system forms.

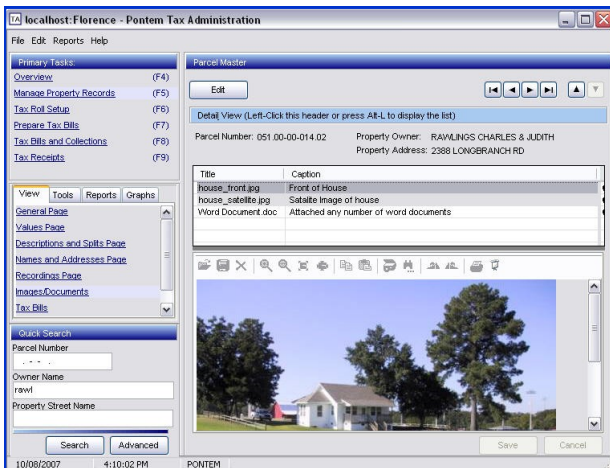

User Security/Rights Provide "Controlled" Access

If you have assistants who need to access your software, we have you covered! Pontem offers licensing allowing multiple users in the system at the same time when the program is installed on your network. With Pontem's powerful security feature, you can assign rights to each user ranging from 'Read-Only' to 'Full-Administrative' access as needed and/or appropriate.

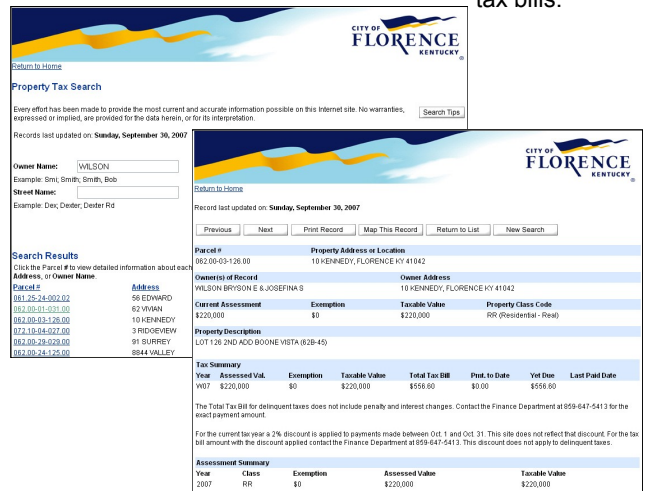

Imaging/Document Management Module

Simplify your life with less paperwork. Replace cumbersome files by maintaining vital tax parcel information electronically. There is no limit to the number of images or standard documents (i.e. Word®, Excel®, PDF, etc) you can associate with each parcel record.

Pontem Online Property Tax Search Service

Provide a great service for residents in your community, while reducing the number of phone calls you receive at the same time. Taxpayers, realtors and banks can easily go online to find the information they are looking for or pay tax bills.

Pontem Offers a Complete Property Tax Administration Solution. Call Today!
