

System Requirements

Stand Alone Computer or Network Client Recommendations:

- ✓ Operating System – Windows™ 2000, XP Professional
- ✓ Computer Processor Pentium 4 class or greater
- ✓ Screen Resolution – 1024 x 768 (minimum)
- ✓ 40GB Hard Drive (Disk storage)
- ✓ CPU – P4 2.8 ghz or better
- ✓ Memory (RAM) – 1 GB
- ✓ Backup – CD-R/CD-RW/DVD drive for backup to CD or DVD
- ✓ Internet Access
 - Remote Training & Support: High Speed Internet
 - Product Update downloads: High Speed Internet

Note: If internet access is not available, updates are available on CD-ROM media at a cost of \$29.95 for shipping and handling.

Minimum Specifications:

- ✓ Operating System – Windows 2000, XP Professional, Vista Business*, or Vista Ultimate*
- ✓ Screen Resolution – 1024 x 768
- ✓ Memory (RAM) 512 MB
- ✓ Hard Disk – 2 GB free space (per application)
- ✓ Backup – Some means for backup to external media
- ✓ Internet Access – 56k modem - Required for remote access with the Pontem Support Team. Internet access is required for downloading updates to the Pontem Software products.

Important – Please be aware that if hardware specifications meet only the minimum requirements, the software will not perform at its optimum capability.

Printer – HP LaserJet. Avoid combination or all-in-one machines that include a printer/scanner/fax.

Network Server Requirements

- ✓ Operating System – Windows 2000, Server 2003, XP Professional, Linux
- ✓ CPU – P4 2.8 ghz or better
- ✓ Memory (RAM) – 1 GB (more users = more memory needed)
- ✓ 80 GB Hard Drive
- ✓ Screen Resolution – 1024 x 768
- ✓ Backup – Some means for backup to external media

Note: Much of the database processing will be done on the file server, more memory and a faster CPU will make a noticeable difference.

* We recommend to our clients that they refrain from installing Windows® Vista products.
